Experience the Source: Where Smart Meets Stunning

Designed with meticulous attention to detail, Source 7 seamlessly blends technology and aesthetics, making it the perfect decorative centerpiece for any room. You can embrace the future of home automation without compromising on style.

Aesthetically Pleasing : Elevate Your Home Decor with Source

Crafted with precision and designed for elegance, Source effortlessly blends with any interior decor, enhancing the aesthetics of your home. It's optional to choose from three captivating low-saturation colors that suit your style and preferences.

● Pine green

● Mountain blue

● Ink black

Source 7

Experience the ultimate convenience with our multi-functional touch panel. Seamlessly control lights, curtains, HVAC systems, music, scenes, security monitoring and even household appliances all in one device.

Accessible and Intuitive: Icon Design for All Ages

User-friendly and interface design

With clear and intuitive icons and control feedback, you can easily understand the status of your appliances at a glance.

Designed with accessibility in mind, the roomy icon design ensures that even the elderly and children can navigate and use it effortlessly.

Easily Adjust Your Devices with the Intuitive Knob

The intuitive knob on Source 7 brings a new level of delight to adjusting light brightness, curtains, and interior temperature.

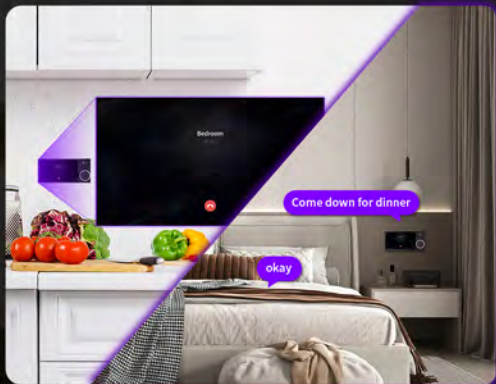

The smooth rotation of the knob puts you in complete command, allowing you to fine-tune your environment with ease.

Personalize Your Homepage for Quick Control

Customize your homepage, simplify your routines and make the most of your time with the Source's optimized features. Easily add your most frequently used functions to the "Favorites" section.

No more searching through menus or digging through complicated settings – everything you need is just a tap away.

Simplifying Communication Between Different Rooms

Source 7 facilitates indoor voice calls, simplifying communication between different rooms. For instance, in the living room or kitchen, you can call your kids for dinner directly through the panel, making everyday tasks even easier.

Say Goodbye to the Dilemma of Choosing Different Systems

With the built-in HDL Link Gateway, Source Panel interconnects devices from both wired and wireless systems, so that you can control all the devices on one panel and save on additional gateway costs.

Local Control Against Network Interruption

Experience peace of mind knowing that Source enables local control, safeguarding against network interruptions. Whether you're facing connectivity issues or simply prefer a direct connection, Source keeps you in command, allowing for quick and reliable device responses.

V10-grade flame-retardant protection eliminates the risk of fire hazards.

Fast-fuse protection design prevents overload and short circuits from causing fires.

High-standard hardware testing surpasses industry testing requirements.

72-hour withstand voltage test ensures reliable performance in diverse and complex installation environments.

Over 50,000 relay lifespan tests guarantee a usage lifespan of over 10 years.

*** Note: Testing data provided by HDL Testing Center.**
